A concept in lighting that is new and dramatic, now made so simple, so easy to use that anyone, anywhere can easily achieve this new dimension in outdoor decor

This is **Sears** way

A low voltage lighting system with six colored-lens lights that can be moved anywhere you wish along the 125-foot cable

Focus attention on special points of interest, or just add an aura of beauty-in-color to your yard or patio. 6 weatherproof sealed beam lamps use 18 watts, only 12 volts for long life.. 6 lenses of different colors (plus extra clear lens for spotlighting). If you wish, you can even bury the cable underground. Costs less than 2c to run for 8 hours.. 110-120 v., 60-c. AC. Transformer reduces voltage for greater safety. Timer lets you control lighting automatically. Stakes and Brackets included. UL listed. Shipping weight each set 30 lbs.

This is **Sears** way..

We even tell you about purple martins, and why you will enjoy owning this wonderful martin house

An adult purple martin often eats its own weight in mosquitos every day. Further, it catches them on the wing—swooping and swinging in long arcs that make this bird—our largest swallow—a real delight to watch.

Its own weight in mosquitos is at least 2000 mosquitos—making a purple martin one of the most effective insect destroyers in all of nature. Think what a colony of 24 adult birds can do to hold bugs down in your area and think, too, that this is a *natural* way to control insects. With no harmful effects on anything but the bugs.

Martins are a joy to behold—one of our most agile, expert flyers. A group of them on the wing is a lovely thing . . . and even though they may all look identical at first, in time you come to recognize individual birds and notice their distinctive personal habits. They are neat and clean in habit—cleaning their house in the fall is simply a matter of lowering it on its telescoping pole, and sweeping out loose material used for nest building. Martins begin arriving as early as February 1st and continue throughout the spring. The earlier you erect your house, the better your chance to attract a colony. Early arriving martin "scouts" will look over your house—and, if they approve, lead a colony to it as they arrive. Once they settle in your house, they usually return year after year. Houses should be erected at a height of 6 ft. to 14 ft.—requiring the greatest height where surrounding trees restrict flying room.

Sears houses are designed with the greatest care:

Nesting cubicles are ventilated, have swing-up doors so you can clean them easily; entrance holes are just the right size and height from the floor to appeal to martins, railings provide handy perches, protect young birds—and, finally, each house is carefully fabricated of rot-proof aluminum—light and strong.

Aluminum roof, floors and outer walls have baked-on green and white enamel finish. Matching snap-in door stops (sold below) will close the doorway to other birds between seasons.

We are sure you will find these birds enjoyable, as have thousands of other people . . . and we know a Sears Martin House is designed in every possible way to make it easy for you to attract a martin colony to your yard.

12 Cubicle House. Unassembled.

There is simply no better paint of this type that you can buy . . . we've spared no effort to make this so.

Flows on with a speed and smoothness that's surprising for a one-coat oil base paint. Dries fast without sagging or brush marks . . . stays on longer than any type of paint we've ever tested.

Made so good it practically wrote its own revolutionary guarantee

This is Sears way

GUARANTEE

- 1 . . Guaranteed to cover any color paint with one coat (except on shake shingles) without sagging or brush-marks
- 2 . . Guaranteed stainproof; neither rust nor corroding copper will cause streaks on Pure-Pure White
- 3 . . Guaranteed to rinse clean without chalking. Will not streak dark color or brick surfaces below it
- 4 . . Guaranteed to keep its white color; will not turn yellow

If Pure-Pure White fails in any of the above respects, we will supply additional paint, as needed, or refund the purchase price.

SEARS, ROEBUCK AND CO.

\$6.50
Gallon

An exclusive formula brings you this superb paint that goes on whiter and stays whiter than any paint we've ever sold . . . or seen. And it needs just a passing rain to rinse itself clean . . . because dirt doesn't penetrate its glossy and super-smooth surface.

So highly resistant to blistering, peeling, masonry-alkalinity, mildew, industrial fumes and smog, you can use it with complete confidence on a wide variety of exterior surfaces—wood, asbestos shingles . . . brick, cement, other masonry . . . shakes, metal. Lead-free. For bare or badly weathered surfaces, use undercoat sold on page 1094.

30 A 25024—Quart. Does up to 110 sq. ft. Wt. 4 lbs. 3 oz.	\$1.98
30 A 25025C—Gallon. Does up to 500 sq. ft. Shpg. wt. 12 lbs.	6.50

A precision-made high performance 9-transistor walkie-talkie system that allows you to send and receive up to three miles . . .

The complete system—

two 100-milliwatt

Citizens' Band Transceivers, complete with two batteries,

two earphones and two carrying straps

—all at the amazing low

price of \$55.00

This is **Sears** way

You get the most powerful walkie-talkies you can use without a license. But power's just part of the story. You enjoy clear, crisp reception from super-sensitive chassis. Even weak signals don't come out garbled. And what ruggedness! The thick die-cast aluminum fronts and all-metal housings provide lasting shields against hard wear and damage.

With 2½-inch speaker/microphone for clear sound. Channel 11 crystals included. Each about 6x2½x1½ inches . . . with battery gauge, push-to-talk button, on-off/volume control and 41-inch telescoping antenna. From Japan.

Complete System.

57 A 6451—Shpg. wt. 3 lbs. \$5 month Cash \$55.00

Single Walkie-Talkie. Includes battery, earphone, strap.

57 A 6450—Shpg. wt. 1 lb. 8 oz. \$4 month Cash \$27.95

See what you get in complete system . . . even earphones for "silent" listening

Built-in battery gauge tells you when to get new battery . . . helps you prevent battery-caused power failures before they happen

All over America, stores carry jackets that look like this—but few, if any, combine such a superb fabric with such thoughtful attention to every tailoring detail. Further, ours come in 49 sizes...you'll get a comfortable, perfect fit for probably the first time in your life

This is **Sears** way

Wash and wear at its best...65% Dacron* polyester and 35% combed Pima cotton. Only 2-ply yarns are used (2 threads twisted together for more strength) in this poplin weave...so tight it's naturally water repellent. Sears has even added a finish to repel all oily stains. Extra-comfortable raglan sleeves. Sleeve and shoulder yoke lined

with smooth nylon so jacket never binds. Two-button cuffs you can turn up...or you can push up the sleeves—they stay up because of an elastic insert. Inside cigarette pocket. Elastic at waist. All seams double for added strength. Machine wash, medium, machine dry; a shake and the jacket's neat looking, ready to wear again.
